

M. PRIA ADMAJA

I'm a software developer with a background in agriculture. I started learning programming languages in July 2022 and joined the Fazztrack Software Development Bootcamp in February 2023. Since then, I have been continuously learning and forging my path to becoming a professional coder. My primary role is as a frontend developer, where I use JavaScript and TypeScript as my main languages, along with React.js and Next.js as my frameworks. Additionally, I am familiar with several other technologies, including React Native, Node.js, Express.js, and PostgreSQL. I am committed to improving my skills and learning something new every day. I believe that continuous growth and adaptation are key to success in the tech industry, and I strive to stay updated with the latest trends and best practices.
